South Central College
You Can Help

Your unrestricted gifts to the SCC Foundation help fund three major initiatives:

1. **Scholarships**
   Scholarship support for our students allows them to focus more of their efforts on their education and less on the financial burden of paying for college.
   - SCC students who received a scholarship are completing their education and graduating at a rate 50% greater than their peers.
   - Dozens of community members assist in reviewing scholarship applications each year to make sure the most deserving students are awarded the honor. More volunteers are needed. If you would like to be involved, please contact the Foundation Office.

2. **State-of-the-art Equipment**
   To remain strong and relevant, SCC must provide students access to the latest in equipment, along with guidance from industry professionals.
   - Technology is always evolving, and the need is great for additional equipment.
   - A few recent examples of equipment purchases include a Hydraulic Flow Meter (Ag Service Tech); Coordinate Measuring Machine (Machining); Mechanical Gear Boxes (Mechatronics); and MIG Tools (Welding).
   - SCC’s program advisory committees provide guidance to the faculty in our technical programs to ensure we remain current with the needs of industry. We would appreciate your help in shaping our programs to the evolving employment outlook. Please contact the Foundation Office if we can count on your expertise in this process.

3. **Emergency Assistance**
   Emergency situations arise for students, becoming a barrier to finishing a semester of college. Small awards create a bridge to the financial security that a degree can provide.
   - Students who benefited from the emergency assistance in the spring of 2016 successfully completed their spring coursework and are returning to classes in the fall at a rate greater than 80%.

---

All About Students

- Students are enrolled in more than 40 programs.
- Average age of an SCC student is 29.3.
- 4 out of 5 students are employed while attending SCC.
- 82.1% of graduates have jobs in their fields of study.
- Nearly 50% of SCC graduates continue their education.
- This year’s students, if attending full-time, will pay approximately $5,500 for tuition before grants and scholarships (not including books, tools, room & board, etc.).
