EAP 0085 English for Academic Purposes: College Writing and Grammar

Course Outcome Summary

Course Information

Description
EAP 0085 English for Academic Purposes: College Writing and Grammar is equivalent to ENGL 0080 for multilingual students whose first language is not English. This course is an introduction to academic writing, grammar, and communication for students who need more instruction in and practice with English spelling, punctuation, pronunciation, simple and compound sentence structure, and paragraph structure. Special attention is given to English keyboarding skills and learning to navigate the D2L LMS, as well as the practical skills of using campus email and filling out forms and documents needed to maintain one’s status as a student. Explicit instruction is also given in the academic expectations and speaking skills demanded in higher education in the U.S., such as communicating with instructors, peer and group discussions, seeking help from college staff, and giving short reports and presentations. A cross-cultural comparative approach is taken throughout this course, and students are encouraged actively and critically to think about, write about, and share their experiences and perspectives with the greater SCC community. (Prerequisites: Placement in this course is determined by the EAP Coordinator using multiple assessment measures.).
