Guests: Lisa Lamor, Joy Hansen

Welcome
Chair, Adam Draheim called the meeting to order.

Bylaws
We reviewed the bylaws and decided to alternate a Chair and Vice Chair each year from each campus. So, Adam agreed to serve this year as the chair, so we decided to elect a Vice Chair from N. Mankato area business who will serve as Chair next year.
Further discussion will be held later in the meeting for volunteers.

Program Accreditation
Lisa Lamor shared an overview of NIMS credentialing and the redesign of curriculum. To aid in the curriculum process, extensive work is needed on a self-study to look at a cross section of information.

Accreditation for the program is college wide and not campus specific. Information will be brought back to the committee in the spring for report and discussion. The response and submission will be in paper and electronic format to allow for transparency.

Curriculum Questions
Barb Embacher described the Certified Production Technician core curriculum. The four courses will be embedded into CIM, Welding and Mechatronics curriculum. This will also assist with Adult Basic Education students who enter FastTrac programs. These are two credit courses.

There was discussion to how to hold classes at one time or individually and offered in a variety of ways: Online, face to face, in 8 week blocks, etc. Members would like to review the details of the curriculum. Barb will send Common Course Outlines (CCOs) in the new year after faculty have revised them for SCC.
Motion was made by to LuAnn, MMPA, to move forward with 4 courses, seconded by Rod Gramse seconded. Unanimously passed.

Jon Morgan discussed the need to retain or remove the TIG welding course in CIM program or move into CNC program. Discussion was held and it was agreed that students could obtain the TIG two credit course from the welding program if desired. It was noted the broad exposure of the foundation of the process of welding should be retained. SCC’s customized training department is always an opportunity for individualized preference.

**TAACCCT Grant**
SCC has been awarded the $15 million U.S. Department of Labor TAACCCT grant funds.

Barb shared a high-level overview of the grant and thanked everyone for their hard work in bringing this home. The grant will work with 12 other MnSCU colleges. They will be asked to adopt the core curriculum and design apprenticeship/co-op models for their own colleges.

Anne Willaert will be the grant director and additional staff will be forthcoming.

TAACCCT grant funds can only be used for curriculum development, training for faculty, marketing, support services, equipment and not for student tuition.

**Election of Vice Chair**
Vice Chair for Each Campus was further discussed. Lief Johnson volunteered to serve. Nominations were closed, motion made and seconded and unanimously approved.

**Misc. Items/Open Discussion**
Tami Reuter shared that Matt Mangulis will join the Foundation Board. Leveraged funding for next year would be matched with state dollars.

Shelly Rockman shared the challenge for other programs. Donations can be directed to Shelly Rockman or Tami Reuter. Shelly and the FB members later discussed the former tool box fund and decided to notify former donors that we will no longer be purchasing individual student tool boxes, but instead will set up scholarships and provide equipment and tool support to the entire program through the foundation CIM account.

Open discussion – none

Jon Morgan welcomed Howard Blume as the new lab assistant.

**Internships**
Faculty described the number of current students who are looking for companies that would take on as an intern.

**CIM Lab Update/Tours**
Tours were given.
