Common Course Outline

MULT 2295 Multimedia Technology Internship

Course Information

Description
This course is designed to provide the student with a purposeful occupational experience in the Multimedia Technology field. Each internship is an individualized experience. A plan is created for each student in conjunction with the training site to provide experience related to the skills and knowledge acquired in the program. This plan is based on the college's and the program's core competencies. One credit of Internship is equal to 48 hours.

Prerequisites: GCC 1220 Graphic Software 2; GCC 1250 Web/Interactive Media 1; ART 140 Digital Photography 1 and ART 170 Video Production 1 with a C- or better; OR advisor approval.

Career Cluster
Arts, Communications, & Information Systems

Institutional Core Competencies

1 Analysis and inquiry: Students will demonstrate an ability to analyze information from multiple sources and to raise pertinent questions regarding that information.

2 Critical and creative thinking: Students will develop the disposition and skills to strategize, gather, organize, create, refine, analyze, and evaluate the credibility of relevant information and ideas.

3 Ethical reasoning and action: Students will develop ethical and social responsibility to self and others, and will collaborate with others to address ethical and social issues in a sustainable manner.

4 Foundations and skills for lifelong learning: Students will display an understanding of learning as a lifelong process through demonstration of a desire to learn, the willingness to apply learning to other areas of their lives, the ability to think and act independently, be willing to take the initiative to get projects done, and demonstrate the ability to reflect upon what has occurred and how it impacts the student and others.

5 Teamwork and problem-solving: Students will demonstrate the ability to work together cohesively with diverse groups of persons, including working as a group to resolve any issues that arise.
6 Written and oral communication: Students will communicate effectively in a range of social, academic, and professional contexts using a variety of means, including written, oral, numeric/quantitative, graphic, and visual modes of communication.
