VI. Grievance Representative Report	<p>Diann Marten – Shared the concern about graduation and what is being done has not been run through faculty and seems to be extra duties for faculty. Faculty like the receptions for programs on campus; however, one reception for the college overall area may be better, with program tours available by the various departments/programs. Faculty feels that requiring faculty to be the host for the graduation reception is a lot to expect.</p> <p>Dr. Parker shared that there has been some minor tweaks to the commencement since her time focusing on meeting the requests of the faculty. She will check into this and work on</p>

<p>IX. Budget Update</p>	<p>David Armstrong shared:</p> <ul style="list-style-type: none"> • General budget – composed of multi pots of money • \$29.1 M collected • \$21.2 M expenditures • \$7.4 M encumbrances • In a fairly good spot as it looks like we will be around break even. • Have federal and state grants that support an additional \$17 M, which includes financial aid • Total is approximately \$47M for operations • Reserve at approximately \$11 M with approximately \$8 M considered restricted <p>Assumptions for next fiscal year:</p> <ul style="list-style-type: none"> • Down in enrollment slightly • Using 4% as average in projections = \$400,000 in tuition revenue we will not be collecting. • Allocation framework spells out very specifically what we are getting. We are getting hammered in our instructional cost. 51 programs only 18 are in the band and 33 outside the band. It is across the board – not one specific area. Two-thirds of our programs are outside the band – we are losing funding due to this. Need to get our arms around this and all work together to get this figured out. • How can we control costs that we have control of – such as printing and utilities. Can we alter our behavior? Asked if David could create some benchmarks. He plans to do that this summer with utilities. • David will send the information electronically on what he shared today.

Diann Marten asked about the differential tuition – it is in the revenue section so it doesn't spend down when spent. David shared that the differential tuition helps to offset the additional expenses that are to be assigned to those courses. Should be covered within your expense budgets. Should be offset by the differential tuition. It is not additional budget. Faculty was not sure this is the way it was in the past but need to know so changes can be made.

Tuition is collected in one big pot – differential tuition is to help offset the more expensive program budgets.

Jay Wendelberger asked about the travel budgets coming out of the individual budgets and if they were going to be put in separate travel budget. If there was a travel budget for individual programs or departments may help in the instructional cost study.

Dr. Parker shared the Composite Financial Index (CFI) band and we are now where we should be and now need to watch so we do not get below. This is the reason why we are healthy.

May be helpful if there are some guidelines in the rooms as to the lights on/off.

Dr. Parker shared the Department Chair assignments. Letters will be going out soon.

X. Process, Results & Improvements (PRI)	No report out.
XI. Adjourn	Meeting adjourned at 3:00 pm.
