ATTACHMENTS & LINKS

- **Consider including a photo or logo with your article** to help add visual interest (jpg or png)
- **Avoid submitting just a flyer**, even if all information is on the flyer. Please include a *headline and short article* (a few sentences) along with it so there is an article from which to link the flyer.
- For accessibility reasons, we cannot include web or email addresses written out in the newsletter. Instead, we must attach a hyperlink to words in the article. **Please indicate which word(s) you want linked to and where.**
Example: “Training and support opportunities are in the new CTLE Sharepoint site (link1). Any questions or requests for consultations can be emailed to CTLE (link2).”
link 1: <https://mnscu.sharepoint.com/teams/SCC/Prod/SAA/CTLE>
link 2: ctle@southcentral.edu
- Also for accessibility reasons, **avoid using generic phrases like “click here” or “more info”** for links. Please write something more descriptive like “For more information, please see the event flyer”.
- Please **double check** that all of the provided attachments and links are accurate prior to submission.
