

Confined Space Entry & Rescue

Training with SCC's State-of-the-Art Mobile Unit

Get an overview of OSHA requirements surrounding the entry of permit required confined spaces, and take away key best practices used in industry to go beyond compliance and keep yourself and your employees safe. By using South Central College's Mobile Training Unit, participants may apply the training in a safe, controlled environment.

Our expert trainers use technology to simulate actual hazards in the Mobile Training Unit using a mock atmospheric monitor, allowing participants to use best practices to mitigate hazards without the danger of those hazards being present.

Program includes:

- Regulations and standards
- Correct use of equipment and PPE
- Vertical and horizontal simulation
- Atmospheric Monitoring
- State-of-the-art hazard simulation technology
 - Oxygen rich/deficient
 - Increased levels of H₂S, CO, NH₄

Training sessions can be delivered at your location or at either of our two campuses.

What Students are Saying

"Very friendly open learning environment."

"Informative, learned things I did not know about."

"Knowledgeable instructor, well prepared and well instructed."
