

ANNUAL FUND DRIVE

South Central College
Faribault Campus
Foundation

Supporting Student Success
One Scholarship at a Time

2018 - 2019

Dr. Annette Parker

SCC President

“Last year South Central College’s administration, faculty and staff began working on an aggressive, comprehensive, four-year action plan to support student success.

The theme of the plan is “Just One More” and focuses on making a difference one student at a time.

As a contributor to the South Central College Faribault Campus Foundation, you make a difference one scholarship at a time. A single scholarship can make a significant impact on an individual student’s success.

And because student success results in community success, when you support our students, you support our community as well.

Thank you for joining in the effort to make a difference for “Just One More” student this year and beyond.”

Gene Buhr

2018-19 Annual Fund Drive Chair

“Education has always been important in our family. My parents grew up during the Great Depression and both had to drop out of school in the eighth grade to help support

their families. My siblings and I, with encouragement from my parents, were able to go to college. My mother earned her GED when I went to college and my younger brother was 11 years old. My wife, Barb, attended South Central College while working at Mayo Clinic to obtain her coding license, allowing her to move up to a job she really enjoyed.

South Central College provides an opportunity for many who have been forced to drop out of school or postpone higher education, to achieve their educational goals and have a productive and satisfying life.”

Gene Buhr has served as President of 1st United Bank in Faribault since 2010 and has been employed at the bank for 37 years. After their four children graduated from high school, Barb was able to attend South Central College to take classes to help her get her medical coding license.
