

South Central College
Program Design

CERT 3000 Photography Certificate

Program Information

Instructional Level Certificate

Career Cluster Arts, Communications, & Information Systems

Description

The Photography Certificate at South Central College is a fast-paced technology program. This certificate provides learners with design and software skills that sequence digital art courses, which emphasize artistic expression while building lighting, visual, and interpretive skills in photography. This certificate covers the camera's fundamental and creative aspects, lighting, digital imaging, critical history of photography, online presentation, and portfolio development. Learners enrolled in this program will benefit from personalized attention, current computer labs, and workstations set in a comfortable and relaxed atmosphere for learning new design techniques.

Program Student Learning Outcomes

- 1 Demonstrate proficiency and use of multimedia software to prepare professional material.
- 2 Demonstrate principles, elements, and planning processes of design.
- 3 Produce a professional digital portfolio.

Program Configurations

Fall Start

Credits

Arts & Sciences	6
