Train Future Employees and Retain Current Employees with Customized Workforce Education

We have heard many of our employer partners voice their concerns with hiring in an area known nationally for having the lowest unemployment rates in the entire country. While we do not have a solution for recruitment, nor a pipeline of available workers, what we do have is the best possible option in retaining and optimizing your current staff to do more with what you currently have. Now is the time to invest in your current workforce. More and more employers are working with South Central College (SCC) Customized Workforce Education to upskill employees to compete in today’s evolving workforce.

Our team of training experts come directly from various industries, and we understand the hassle that comes with investing company time and energy to develop new trainings in-house. Because of this, we develop our courses to meet the organizational training needs in a variety of formats to accommodate busy schedules and provide flexibility for working professionals. From Google certifications, certified exam prep courses, workplace safety and compliance training to new supervisor skills and data analytics, our workforce education catalog is vast and evolves with the speed of business.

South Central College’s workforce education trainers can even develop and lead a customized training program right at your company’s site, eliminating travel barriers for you and reduce time spent off the line to receive essential training.

Let SCC Customized Workforce Education help you train, retain, and invest in your workforce.

We look forward to serving you!

Cisco CCNA Associate & CyberOps Associate Training Boot Camp
This innovative seven-day boot camp is designed specifically for network engineers and administrators requiring full knowledge of Cisco router and switch configuration. You will gain hands-on experience by completing a series of labs in our Networking Cyber Range. The labs provide practical experience in a networking and switching environment and prepare you for the simulation-based questions you will find on the CCNA 200-301 exam. In addition to gaining in-depth knowledge about network access, IP connectivity, IP services, and automation and programmability for Cisco networks, you will learn about the hottest area of networking: network security. Our expert instructors first prepare you to pass the CCNA exam. After passing that exam, you will then train directly on the Cisco Certified CyberOps Associate curricula, all in one sitting. You will receive an exam voucher for the Cisco CCNA and the Cisco CyberOps certification exams with your enrollment. Our Certification Success Program, paired with our provided prep materials, boot camp sessions, and post-work, is designed to ease any concerns you may have when taking the certification exam.

Google IT Automation with Python Certificate
Knowing how to write code to solve problems and automate solutions is a crucial skill for anybody in IT. Python, in particular, is now the most in-demand programming language by employers. This online, self-paced program builds on your IT foundations to help you take your career to the next level and takes about 6 months to complete. It’s designed to teach you how to program with Python and how to use Python to automate common system administration tasks. You’ll also learn to use Git and GitHub, troubleshoot and debug complex problems, and apply automation at scale by using configuration management and the Cloud. Practice your technical skills with hands-on projects including a capstone project where you’ll use your new knowledge to solve a real-world IT problem. When you register, you’ll receive six (6) months of access to complete the course, along with support from a dedicated success coach. After you’ve graduated from the program, you’ll be prepared for a variety of roles in IT, like more advanced IT Support Specialist or Junior Systems Administrator positions. You’ll also get access to career resources and be connected directly with employers. This certification may also qualify for credit for prior learning at South Central College, should you choose to enroll in an academic program at SCC in the future.

Google IT Support Certificate
With entry-level jobs in IT fetching an average salary of $52,000 per year, starting a career in IT can be extremely lucrative and have a high potential for growth. Basic IT skills will position you to secure an introductory-level role to begin your IT career, and from then on, the opportunities are endless. This online, self-paced program includes over 100 hours of instruction and hundreds of practice-based assessments, which will help you simulate real-world IT support scenarios that are critical for success in the workplace. The content is highly interactive and exclusively developed by Google employees with decades of experience in IT. Through a mix of videos, assessments, and hands-on labs, you’ll be introduced to troubleshooting, customer service, networking, operating systems, and security. This program also helps to prepare you for the CompTIA A+ exams, the industry standard certification for IT, you’ll earn a dual credential when you complete both. In addition, you’ll gain the baseline level of knowledge needed to build on those foundations and pick up more advanced skills with the Google IT Automation with Python Professional Certificate. When you register, you’ll receive six (6) months of access to complete the course, along with support from a dedicated success coach. After you’ve graduated from the program, you’ll have access to career resources and be connected directly with employers hiring for open entry-level roles in IT. This certification may also qualify for credit for prior learning at South Central College, should you choose to enroll in an academic program at SCC in the future.

Google UX Design Certificate
Get started in the in-demand field of user experience (UX) design with a Professional Certificate from Google. This online, self-paced program includes over 200 hours of instruction and hundreds of practice-based activities and assessments that simulate real-world UX design scenarios and are critical for success in the workplace. Learn how to complete the design process from beginning to end, including: Empathizing with users; Defining user pain points; Coming up with ideas for design solutions; Creating wireframes, mockups, and prototypes; Testing designs through usability studies; Iterating on designs based on feedback. Through a mix of videos, readings, assessments, and hands-on activities, you’ll learn in-demand design tools, Figma and Adobe XD. You’ll even create a portfolio that includes three projects to share with potential employers to showcase the skills you learned in this program. When you register, you’ll receive six (6) months of access to complete the course, along with support from a dedicated success coach. After you’ve graduated from the program, you’ll have access to career resources and be connected directly with over 150 employers hiring for open entry-level roles in UX design.

Health Care

ACLS Recertification
A recertification class for Advanced Cardiac Life Support providers, this covers the latest American Heart Association guidelines and skills. Materials are mailed prior to class. This is an American Heart Association approved ACLS provider course. Prerequisites include a current Basic Life Support certification, rhythm reading and knowledge of pharmacology. Those not proficient in rhythm reading and pharmacology are encouraged to enroll in the Pre-ACLS class. *this course does not include Basic Life Support recertification

8 hours 3/17/23 9:00 AM – 5:00 PM SCC North Mankato $220.00
8 hours 6/9/23 9:00 AM – 5:00 PM SCC North Mankato $220.00

Advanced Cardiac Life Support (Initial)
For initial certification in Advanced Cardiac Life Support, this American Heart Association-approved course offers the latest AHA guidelines and skills. Materials are mailed prior to class. (For recertification, please register for the ACLS Recertification class. Recertification students pay full tuition if attending the ACLS Initial class). Prerequisites include current Basic Life Support certification, rhythm reading, and knowledge of pharmacology. Those not proficient in rhythm reading and pharmacology are encouraged to enroll in the Pre-ACLS class. Clock hours for CEUs will be offered.

14 hours 3/15 4-10pm & 3/17 9am-5pm SCC North Mankato $280.00
14 hours 6/7 4-10pm & 6/9 9am-5pm SCC North Mankato $280.00

Pediatric Advanced Cardiac Life Support Initial
This American Heart Association-approved class equips you with the skills necessary to rescue and stabilize infants and children who are in respiratory failure, shock or cardiopulmonary arrest. Designed for health care providers including pediatricians, nurses, paramedics, emergency physicians and house staff, the course teaches you to recognize the signs of distress and the strategies for prevention.

14 hours 4/19 4:00 PM – 10:00 PM & 4/21 9:00 AM – 5:00 PM SCC North Mankato $280.00

Pediatric Advanced Cardiac Life Support Recertification
This is an American Heart Association-approved recertification course in infant and children rescue, designed for health care providers. This course provides you with the latest information needed to recognize and respond to life-threatening instances of infants and children in respiratory failure, shock or cardiopulmonary arrest. You’ll sharpen your skills at resuscitating and stabilizing as well as preventing incidents. This course is for pediatricians, house staff, emergency physicians, nurses, and paramedics and other health care providers for infants and children. Prerequisite: PALS Initial

8 hours 4/21/23 9:00 AM – 5:00 PM SCC North Mankato $220.00

AHA BLS Provider CPR REFRESHER (3 Hours)
This is a REFRESHER course - student must have current AHA BLS certification and show proof at the beginning of class. This course is for healthcare professionals who need to know how to perform CPR, as well as other lifesaving skills, in a wide variety of in-hospital and out-of-hospital settings. The course includes 1 and 2-rescuer CPR and AED for adults, children and infants; differences among adult, child and infant rescue techniques; bag-mask techniques for all victims; rescue breathing for all victims; and relief of choking for all victims. This class replaces the BLS/Healthcare Provider CPR Initial and Recertification classes.

3 hours 2/1/23 6:00 PM – 9:00 PM SCC North Mankato $75.00
3 hours 3/30/23 6:00 PM – 9:00 PM SCC North Mankato $75.00
AHA CPR Instructor - Initial
If you are an active healthcare provider with a current American Heart Association Provider CPR card, this class will teach you the skills portion of the training needed to become an instructor in Basic Life Support CPR & First Aid classes.

4 hours 2/4/23 9:00 AM – 1:00 PM SCC North Mankato $160.00

AHA CPR Instructor Recertification
This class provides a skills refresher for participants with a current Basic Life Support (BLS) CPR Instructor Certification. This class will enable you to renew your certification with the American Heart Association and your Training Center. You must have also taught four (4) classes in the previous recertification period and be in good standing with the AHA Minnesota Affiliate. If you are an active healthcare provider with a current American Heart Association Provider CPR card, this class will teach you the skills portion of the training needed to become an instructor in Basic Life Support CPR & First Aid classes.

4 hours 2/4/23 9:00 AM – 1:00 PM SCC North Mankato $160.00

AHA HeartSaver CPR AED (Adult 3-Hour)
This course will show you not only how to administer CPR, but to recognize the signs and symptoms of heart attack and stroke. You’ll learn how to perform CPR, clear airway obstructions and use the automatic defibrillator. The course will also cover risk factors for heart disease and stroke. A 2-year American Heart Association card will be issued.

3 hours 3/28/23 9:00 AM – 12:00 PM SCC North Mankato $70.00

Allied Dental Clinical Sedation Certification - 2 Day
One of the only intravenous sedation certification trainings approved by the Minnesota Board of Dentistry. This one-of-a-kind training course includes an online introductory unit (6 hours) paired with a single weekend of hands-on training (14 hours) to provide dental hygienists and dental assistants with the skills and certification necessary to initiate, maintain, monitor and remove intravenous (IV) lines, and/or aid in administration of medications into an existing IV line under the supervision of a dentist with sedation/general anesthesia certification.

14 hours in-person & 6 hours self-paced 2/10 4-10pm & 2/11 8am-4:30pm SCC North Mankato + Online $945.00

Allied Dental Clinical Sedation One Day - Clinical Only
For participants who have already completed DAANCE certification, the Allied Dental Clinical Sedation one-day competency course will provide you hands-on clinical training for intravenous sedation certification, approved by the Minnesota Board of Dentistry. This 8-hour clinical will provide you with the skills necessary to initiate, maintain, monitor and remove intravenous (IV) lines, and/or aid in administration of medications into an existing IV line under the supervision of a dentist with sedation/general anesthesia certification.

8 hours 2/11/23 8:00 AM – 4:30 PM SCC North Mankato + Online $545.00

The Dental Sedation instructors were great! Very thorough with the information. I enjoyed this course. I was also very anxious about getting an IV [inserted], and they were great about comforting me! Highly recommend.

Jenna Parks, Dassel Dental
Certificate in Stress Management
Events, people, and circumstances fill our normal daily lives, along with a certain amount of stress. Stress can be positive or negative, depending on how we perceive the stressor and it impacts our physical, social, spiritual, and emotional health. Stress is also affected by the social and cultural context in which we live. However, with awareness, stress can be managed and reduced. The outcome of this certificate is to for the learner to describe the physiological, social, and psychological aspects of stress; examine the relationship between stress and health, nutrition, and physical activity; identify causes and health effects of workplace stress; and explore modalities to reduce and manage stress. (14 contact hours)

14 hours self-paced Choose Your Start Dates Online $84.00

Certified Phlebotomy Technician
Phlebotomy Technicians are essential to proper healthcare worldwide as they are responsible for drawing blood needed for tests, donations, transfusions, and research. As the population ages and diseases spread across the globe, the need for qualified phlebotomists will only increase. This 100% online course will train you to work as a phlebotomy technician and prepare you for the provisional Certified Phlebotomy Technician Specialist (CPTS) exam offered by the American Education Certification Association (AECA). This course is self-paced and open enrollment, so you can start when you want and finish at your own pace. When you register, you’ll receive six (6) months to complete the course. After earning your provisional certification, you will have six (6) months to complete the clinical skills requirements and convert to full certification.

150 hours self-paced Start Anytime Online $2,295

Health and Well-Being Certificate Bundle
There is an increasing demand for healthcare providers with a knowledge of integrative health who can meet the needs of people from culturally and ethnically diverse backgrounds who have the desire for alternative healthcare options to reduce their risk factors for chronic illnesses, treat mental illness, and help them as they age. This series of three 6-week online certificate courses will provide you with knowledge of both ancient and more modern alternative and holistic means of treatments from around the world with a person-center and person-empowered approach to healthcare. (77 contact hours)

77 hours self-paced Choose Your Start Dates Online $399.00

Medical Billing and Coding Certification
Medical billing and coding is a rising star in the healthcare field today. This 100% online course will prepare you to start a career in this high-demand occupation and earn the medical billing and coding professional certification that best aligns with your interest and career goals. You’ll learn how to use the Healthcare Common procedure Coding System (HCPCS) and the CPT Category II and ICD-10 codes. Additionally, you’ll gain hands-on practice using medical billing and coding software. This course is self-paced and open enrollment, so you can start when you want and finish at your own pace. When you register, you’ll receive twelve (12) months to complete the course. Upon course completion, you’ll receive a voucher for the certification exam of your choice: CPC, CCA or CBCS.

370 hours self-paced Start Anytime Online $2,995

Medical Spanish Series
Are you struggling to communicate with your Spanish-speaking patients? If so, here’s the perfect solution. This series of two 6-week online courses is designed to give healthcare professionals the skills and confidence needed to communicate with Spanish-speaking patients. Start by gaining a strong foundation in the Spanish language that you will be able to build upon in the future. You will learn basic and more advanced medical Spanish vocabulary to help you provide better care for patients and their families.

48 hours self-paced Choose Your Start Dates Online $199.00
Medical Terminology Series
If you have ever had trouble memorizing medical terms, this course (and word association approach) is for you. You will learn medical terminology from an anatomical approach by looking at each root term, its origin, a combined form, and an example of non-medical everyday usage. Learn medical terminology related to all 11 of the body’s organ systems and review different diagnostic and treatment procedures for each system. This series includes two 6-week online courses with lessons and activities designed to help you understand and remember the medical terminology you learn.

48 hours self-paced Choose Your Start Dates Online $199.00

Mental Health First Aid
Mental Health First Aid (MHFA) is an international evidence-based course that teaches you how to identify, understand and respond to signs of mental illness and substance use disorders. This course gives you the skills you need to reach out and provide initial support to someone who may be developing a mental health or substance use problem and help connect them to the appropriate care. Successful completers will earn a 2-year MHFA certification.

Become a Certified Nursing Assistant in Minnesota!
For over a decade, South Central College (SCC) has been an approved test site for the Minnesota State Registry Test for Nursing Assistants, certifying qualified nursing assistants to work in long-term care facilities to meet our community’s health care needs. We are proud to offer testing monthly at both North Mankato and Faribault campuses, including the hands-on Skills Test at our campus labs and the virtual Knowledge Test that candidates can take online from home while video conferencing with a virtual proctor. Candidates must register for and pass both the Knowledge and Skills tests to be certified and listed on the Minnesota Nursing Assistant Registry.

See the next page for testing schedules >>>
Nursing Assistant Knowledge Test
The Nursing Assistant Knowledge Test consists of 70 randomly selected MDH-approved multiple-choice questions in English. Candidates will have a maximum of two hours to complete the test. We offer the Knowledge Test in a virtual format which candidates will complete online and with a virtual proctor from the distraction-free location of their choosing.

TEAS Test Prep Series
Nursing is a high-demand but competitive field. Entering the profession starts with nursing school, and admission to nursing school partially depends on your Test of Essential Academic Skills (TEAS) exam score. Many nursing schools use this standardized exam to evaluate a candidate’s reading, math, science, and English and language skills. Our TEAS Prep Series consists of two 6-week online courses that will prepare you for all aspects of the TEAS exam. TEAS Prep 1 focuses on Reading and English and Language Usage. TEAS Prep 2 focuses on Mathematics and Science. You will also learn valuable study skills, practice sample exam questions, and establish a test taking strategy for exam day.

Customized Workforce Education has a strong and favorable history with the **Minnesota Jobs Skills Partnership Program** (MJSP). MJSP strategically helps Minnesota businesses and colleges to competitively train Minnesota’s workforce. Grants are awarded to educational institutions that partner with businesses to develop new-job training or retraining for existing employees. All training projects pair at least one public/private accredited Minnesota educational institution and one business.

Funds may be used for training-related costs or educational infrastructure improvements necessary to support businesses located or intending to locate in Minnesota. A cash, or in-kind, contribution from the contributing business must match program funds on at least a one-to-one ratio.

Other MJSP grant activities include:

**Low Income Worker Training Program** - grants to help low-income individuals receive training to acquire additional skills in order to move up the career ladder to higher paying jobs.

Contact us at cwe@southcentral.edu to learn if the MJSP or another grant program fits your organization’s needs.
**Certified Quality Improvement Associate (CQIA)**
This course introduces quality concepts to help you understand what quality means and how it is used every day gathered from a variety of industries. It will help prepare you for the American Society for Quality (ASQ) Certified Quality Improvement Associate certification exam. The course outline follows the Certified Quality Improvement Associate (CQIA) body of knowledge (BoK) and explores the history and evolution of quality, quality tools, working with teams, assessing customer-supplier relationships, and more. This course includes a voucher, which is prepaid access to sit for the American Society for Quality (ASQ) Certified Quality Improvement Associate certification exam upon eligibility and course completion. This course is self-paced and open enrollment, so you can start when you want and finish at your own pace. When you register, you’ll receive six (6) months to complete the course.

25 hours self-paced  Start Anytime  Online  $995.00

**Certified Supply Chain Professional (CSCP)**
This 100% online course will provide a holistic view of supply chain management and fully prepare you for the Certified Supply Chain Professional exam. You will learn how to translate the connection between the areas of planning, sourcing, manufacturing, and delivering into an integrated supply chain. By course completion, you will have a firm understanding of mitigation strategies, operationalize risk management practices and implement cost reduction measures. This combination of skills will drive the efficiency of your supply chain and give you a competitive edge in the market. Upon completion, you will be prepared to take the Certified Supply Chain Professional (CSCP) designation. This course is self-paced and open enrollment, so you can start when you want and finish at your own pace. When you register, you’ll receive six (6) months to complete the course.

120 hours self-paced  Start Anytime  Online  $2,295.00

**CNC Machining Basics**
Gain the fundamental knowledge of how CNC Lathes and Milling Machines work in this highly engaging 4-week live online course. Learn everything you need to know to get started in CNC machining, including multi-plane Coordinate Systems, standard CNC programming commands, machine maintenance, similarities and differences between machine models, work holding and cutting tools, and machine setup activities. A short refresher on shop math (in particular, trigonometry) will also be covered, as this is essential for being a good machinist.

Understanding ISO 9001 and Internal Auditor Skills
This class will provide trained auditors ready to effectively and efficiently conduct “Value-added” internal quality system audits, based on practical insights from an experienced QMS Lead Auditor and business owner. Auditors will learn the “Heads-Up” auditing technique for finding value-added improvement opportunities. They will be taught the 9-Step Auditing Methodology for interviewing auditees, as well as basic principles of auditing, note-taking techniques, and how to write audit findings. Hands-on exercises are featured for learning and applying auditor skills and techniques. This class also covers the background to the ISO 9001 standard, including defining the purpose of the quality management system, the quality management principles, and the benefits of registration to ISO 9001. The student will gain insights and tips for implementing a system and/or conducting system audits. The instructor will address differences and questions related to other quality management systems requirements. (Note: The student should bring their own copy of their respective QMS standard for use during the class.) Who Should Attend: Anyone with a need to understand the new ISO 9001:2015 requirements, anyone with the responsibility to effectively implement the QMS or the internal audit program, and anyone conducting internal audits. Note: This class applies equally to other ISO 9001 based standards including AS9100, ISO 13485, IATF 16949:2016, etc.

16 hours Wed 3/22 & Thurs 3/23 SCC Faribault Campus & SCC N. Mankato Campus $650.00

I had the pleasure of working with CWE for a recent Minnesota Job Skills Partnership Grant. Tanja made the process seamless by ensuring she had a full understanding of the scope and goals of the project and by providing guidance, suggestions, and resources. She was able to connect us to a top-notch grant writer and an industry-recognized consultant firm with award-winning authors and speakers. Our employees benefited from Tanja’s commitment to providing the best service and experience, and I look forward to partnering again in the future.

Nichole Bettner, Taylor Corporation
Beginning Conversational French
Proper pronunciation is essential for excellent communication. So, whether you intend to travel abroad or simply want to learn a fun new skill, the Beginning Conversational French course will help you master the basics of French pronunciation. The first lesson introduces the basics needed for conversations and pronunciation. You will then learn conversation lessons to navigate transportation and talk to hotel and restaurant staff. From numbers to currency and communication and more, upon course completion, you will be ready to apply your new skills in the real world. The entire course includes cultural tips for traveling in France and introduces unique aspects of other French-speaking countries. The lessons also provide audio examples of pronunciation and vocabulary words that are written out phonetically.

General Industry 10-Hour
Your employees are your most valuable assets and their health and well-being is critical to the success of your business. Supervisors have a responsibility to maintain the safest working environment possible. Employees need to know what that safe environment looks like and how to maintain it. Ten-Hour General Industry training delivers the necessary tools and skills to assess the workplace for potential hazards and we will address these issues using best practices in order to maintain compliance with the law. Attention to best practices in safety also lowers costs for business and industry. This class is recommended for Human Resource personnel, supervisors and front-line employees in general industry.

10 hours 5/1 8:00 AM - 4:30 PM & 5/2 8:00 AM - 11:15 AM SCC North Mankato $300.00

Thanks for keeping our associates engaged in the material while increasing their knowledge with regards to Right To Know/AWAIR training.

Meghan Strait, Jarraff

The instructors made the content engaging and used examples and illustrations to clearly articulate the concepts and regulations being discussed. Overall the [MSHA] class was very informative, interesting and helpful.

Kurt Fox, ISG Inc.

Barr Engineering Co. has partnered with South Central College for many years to provide up-to-date, high-quality safety training for our employees. We have utilized the college for trainings including MSHA, OSHA-10 hour, rigging, and PowerLift. With their live online training options, it is easy to have consistent, cost-effective training for our employees, whether they are working in Minnesota, at one of our many offices across North America, or on a project site.

John Loff-Peterson, Barr Engineering Co.
**MSHA Annual Refresher Training**

This course is designed to align with MSHA Part 46 and Part 48 annual refresher training requirements for surface mining operations. This course is required for all employees who work under ground or in any mining operations such as: sand, gravel, surface stone, clay, limestone, coal, metal, etc. It meets requirements set forth by the Mine Safety and Health Administration's (MSHA) training regulations Part 46 & 48.

### OSHA #500 Construction Train the Trainer
This course is designed for individuals interested in becoming authorized to teach the OSHA 10 and 30-Hour Outreach Training for their employees or other interested groups. The course will cover basic adult learning techniques and discuss effective presentation skills. During the course, students will prepare a presentation on an assigned OSHA Construction Outreach Training Program topic individually and make a presentation to the class. In addition to attending the full course and presenting an assigned topic, students must pass a written multiple-choice examination to fulfill the requirements of this course.

### Reasonable Suspicion for Supervisors - DOT Compliant
Under federal law, Reasonable Suspicion Training is required for all personnel who manage one or more safety-sensitive employees in transportation-related fields in identifying the signs and symptoms of drug and alcohol use and abuse. This training complies with Federal DOT standards (49 CFR) and Minnesota State Statutes and is designed to provide supervisors with the knowledge and skills they need to legally intervene and appropriately respond to a drug or alcohol reasonable suspicion occurrence in the workplace. If you are not covered by the federal regulations, then all supervisors making reasonable suspicion determinations should be trained on the signs and symptoms in order to avoid potential liabilities including wrongful termination or discrimination suits. Avoid safety risks by identifying the signs and symptoms of substance use and abuse in the workplace.
