Recertification is required every two years. This class will review Minnesota Commercial Vehicle Inspection laws and federal regulations. It will cover new law changes, inspection changes and will include a test for recertification. The cost of the course includes a \$10.00 fee required by the State of Minnesota and all necessary course materials.

CHECK YOUR EXPIRATION DATE! You have six months after your expiration date to be recertified, but you are unable to inspect during this period. If you go beyond the six months, you will be required to retake the eight-hour certification training and examination (the eight-hour training is held in Mendota Heights, MN).
