Administer medications properly to live patients at least the minimum number of times required by the accrediting agency.
Properly document skill performed.

2. Demonstrate the ability to safely perform endotracheal intubation.

Learning Objectives

Intubate live patients successfully at least the minimum number of times required by the accrediting agency.
Properly document skill performed.

3. Demonstrate the ability to safely gain venous access in all age group patients.

Learning Objectives

Access the venous circulation on patients of various age groups successfully at least the minimum number of times required by the accrediting agency.
Properly document skill performed.

4. Demonstrate the ability to effectively ventilate unintubated patients of all age groups.

Learning Objectives

Ventilate patients of various age groups at least the minimum number of times required by the accrediting agency.
Properly document skill performed.

5. Demonstrate the ability to perform a compressive assessment on adult patients.

Learning Objectives

Perform a comprehensive patient assessment on patients of various age groups at least the minimum number of times required by the accrediting agency.
Properly document skill performed.

6. Demonstrate the ability to perform a comprehensive assessment on trauma patients.

Learning Objectives

Perform a comprehensive patient assessment on trauma patients at least the minimum number of times required by the accrediting agency.
Properly document skill performed.

7. Demonstrate the ability to perform a comprehensive assessment, formulate and implement a treatment plan for patients with chest pain.

Learning Objectives

Perform a comprehensive patient assessment, formulate and implement a treatment plan on patients with chest pain at least the minimum number of times required by the accrediting agency.
Properly document skill performed.

8. Demonstrate the ability to perform a comprehensive assessment, formulate and implement a treatment plan for patients with dyspnea/respiratory distress.

Learning Objectives

Perform a comprehensive patient assessment, formulate and implement a treatment plan on adult patients with dyspnea/respiratory distress at least the minimum number of times required by the accrediting agency.
Perform a comprehensive patient assessment, formulate and implement a treatment plan on pediatric patients (including infants, toddlers, and school age) with dyspnea/respiratory distress at least the minimum number of times required by the accrediting agency.
Properly document skill performed.

9. Demonstrate the ability to perform a comprehensive assessment, formulate and implement a treatment plan for patients with syncope.

Learning Objectives

Perform a comprehensive patient assessment, formulate and implement a treatment plan on patients with syncope at least the minimum number of times required by the accrediting agency.
Properly document skill performed.

10. Demonstrate the ability to perform a comprehensive assessment, formulate and implement a treatment plan for patients with abdominal complaints.

Learning Objectives

Perform a comprehensive patient assessment, formulate and implement a treatment plan on patients with abdominal complaints at least the minimum number of times required by the accrediting agency.
Properly document skill performed.

11. Demonstrate the ability to perform a comprehensive assessment, formulate and implement a

treatment plan for patients with altered mental status.

Learning Objectives

Perform a comprehensive patient assessment, formulate and implement a treatment plan on patients with altered mental status at least the minimum number of times required by the accrediting agency.
Properly document skill performed.

SCC Accessibility Statement

South Central College strives to make all learning experiences as accessible as possible. If you have a disability and need accommodations for access to this class, contact the Academic Support Center to request and discuss accommodations. North Mankato: Room B-132, (507) 389-7222; Faribault: Room A-116, (507) 332-7222.
